OBJECTIVE

I'm a Full Stack Developer with solid experience in both Front-End and Back-End Development. I'm good at HTML, CSS, and JavaScript, creating websites that look great and work well. I know my way around databases like SQL and MongoDB, ensuring strong data solutions. When it comes to Server-Side Development, I use Django for smooth feature integration. I'm also skilled in Version Control with Git and take testing seriously. I communicate well in teams, and I'm always eager to learn. I approach development with creativity and innovation. My goal is to bring my skills to a dynamic team, push tech boundaries, and deliver top-notch solutions.

EDUCATION

- B.E Agriculture Engineering 2022

Saveetha Engineering College, Anna University

CGPA- 7.43

- HSC 2018

V.O.C Vidiyalayaa Matric., Hr., Sec., School [State Board]

63% Percentage

- SSLC 2016

V.O.C Vidiyalayaa Matric., Hr., Sec., School [State Board]

69% Percentage

Technical SKILLS

- Frontend - HTML, CSS, SASS, JavaScript
- Backend - Python, Django, Node JS
- Database Management - MySQL, MongoDB
- Web Framework - Experience with React for Frontend and Django for backend
- Full Stack Development - Proficiency in both Frontend and Backend with Responsive Web Design
- Software Tools – Xamp, Npm, Bootstrap
- Version Control – Git & GitHub

Projects

- Portfolio Website

I designed and developed a dynamic personal portfolio using React JS and JavaScript, featuring my skills and projects. The project, showcasing proficiency in React and JavaScript, employed SASS, CSS, and HTML for an aesthetically pleasing design. Leveraging Git & GitHub for version control and deployment, the portfolio ensures a seamless user experience across devices with its responsive design. Achievements include the successful integration of React components, implementation of modular styling with SASS, and efficient collaboration through Git.

- E-commerce Website

I developed a robust E-commerce website using Django and Python for a secure back-end foundation, complemented by a visually appealing front end created with SASS, CSS, HTML, and Bootstrap. The project's responsive design enhances the user experience across devices. Employing Git & GitHub for version control and deployment, I ensured collaborative development and efficient tracking of changes.

- Todo List

I crafted a Todo List application using vanilla JavaScript, SASS, CSS, and HTML, showcasing my skills in front-end development. By employing Git & GitHub for deployment, I enabled collaborative development and easy access to the project. The application features CRUD operations for comprehensive task management and boasts a visually appealing design with responsive elements, ensuring seamless user interaction across devices.

SKILLS

- Keeping up-to-date with the latest technologies and trends.
- Working effectively in cross-functional teams.
- Good communication skills
- Ensuring websites work well on various devices and screen sizes.
- Writing and executing tests to ensure code quality.

AREA OF INTEREST

- Responsive Web Design
- React JS
- Coding and Problem Solving
- Front End Development
